

REVOLUTIONIZE YOUR CULTIVATION

Introducing our state-of-the-art

CULTIVATION CONTROL MONITORING SYSTEM

RELIABILITY, EFFICIENCY, AND COST-EFFECTIVENESS

CCMS system is built to last, optimizes your cultivation process, and offers competitive pricing.

QUICK AND SIMPLE SETUP

Get your system up and running with minimal effort and time investment.

TWO-CLICK ACCESS

Reach any function within the system in just two clicks, saving time and increasing efficiency.

USER-FRIENDLY INTERFACE

The expansive 13" screen boasts an intuitive design that enhances visibility and allows for effortless navigation and operation.

LOCAL AND MOBILE CONTROL

Manage each room both on-site and remotely through your mobile device.

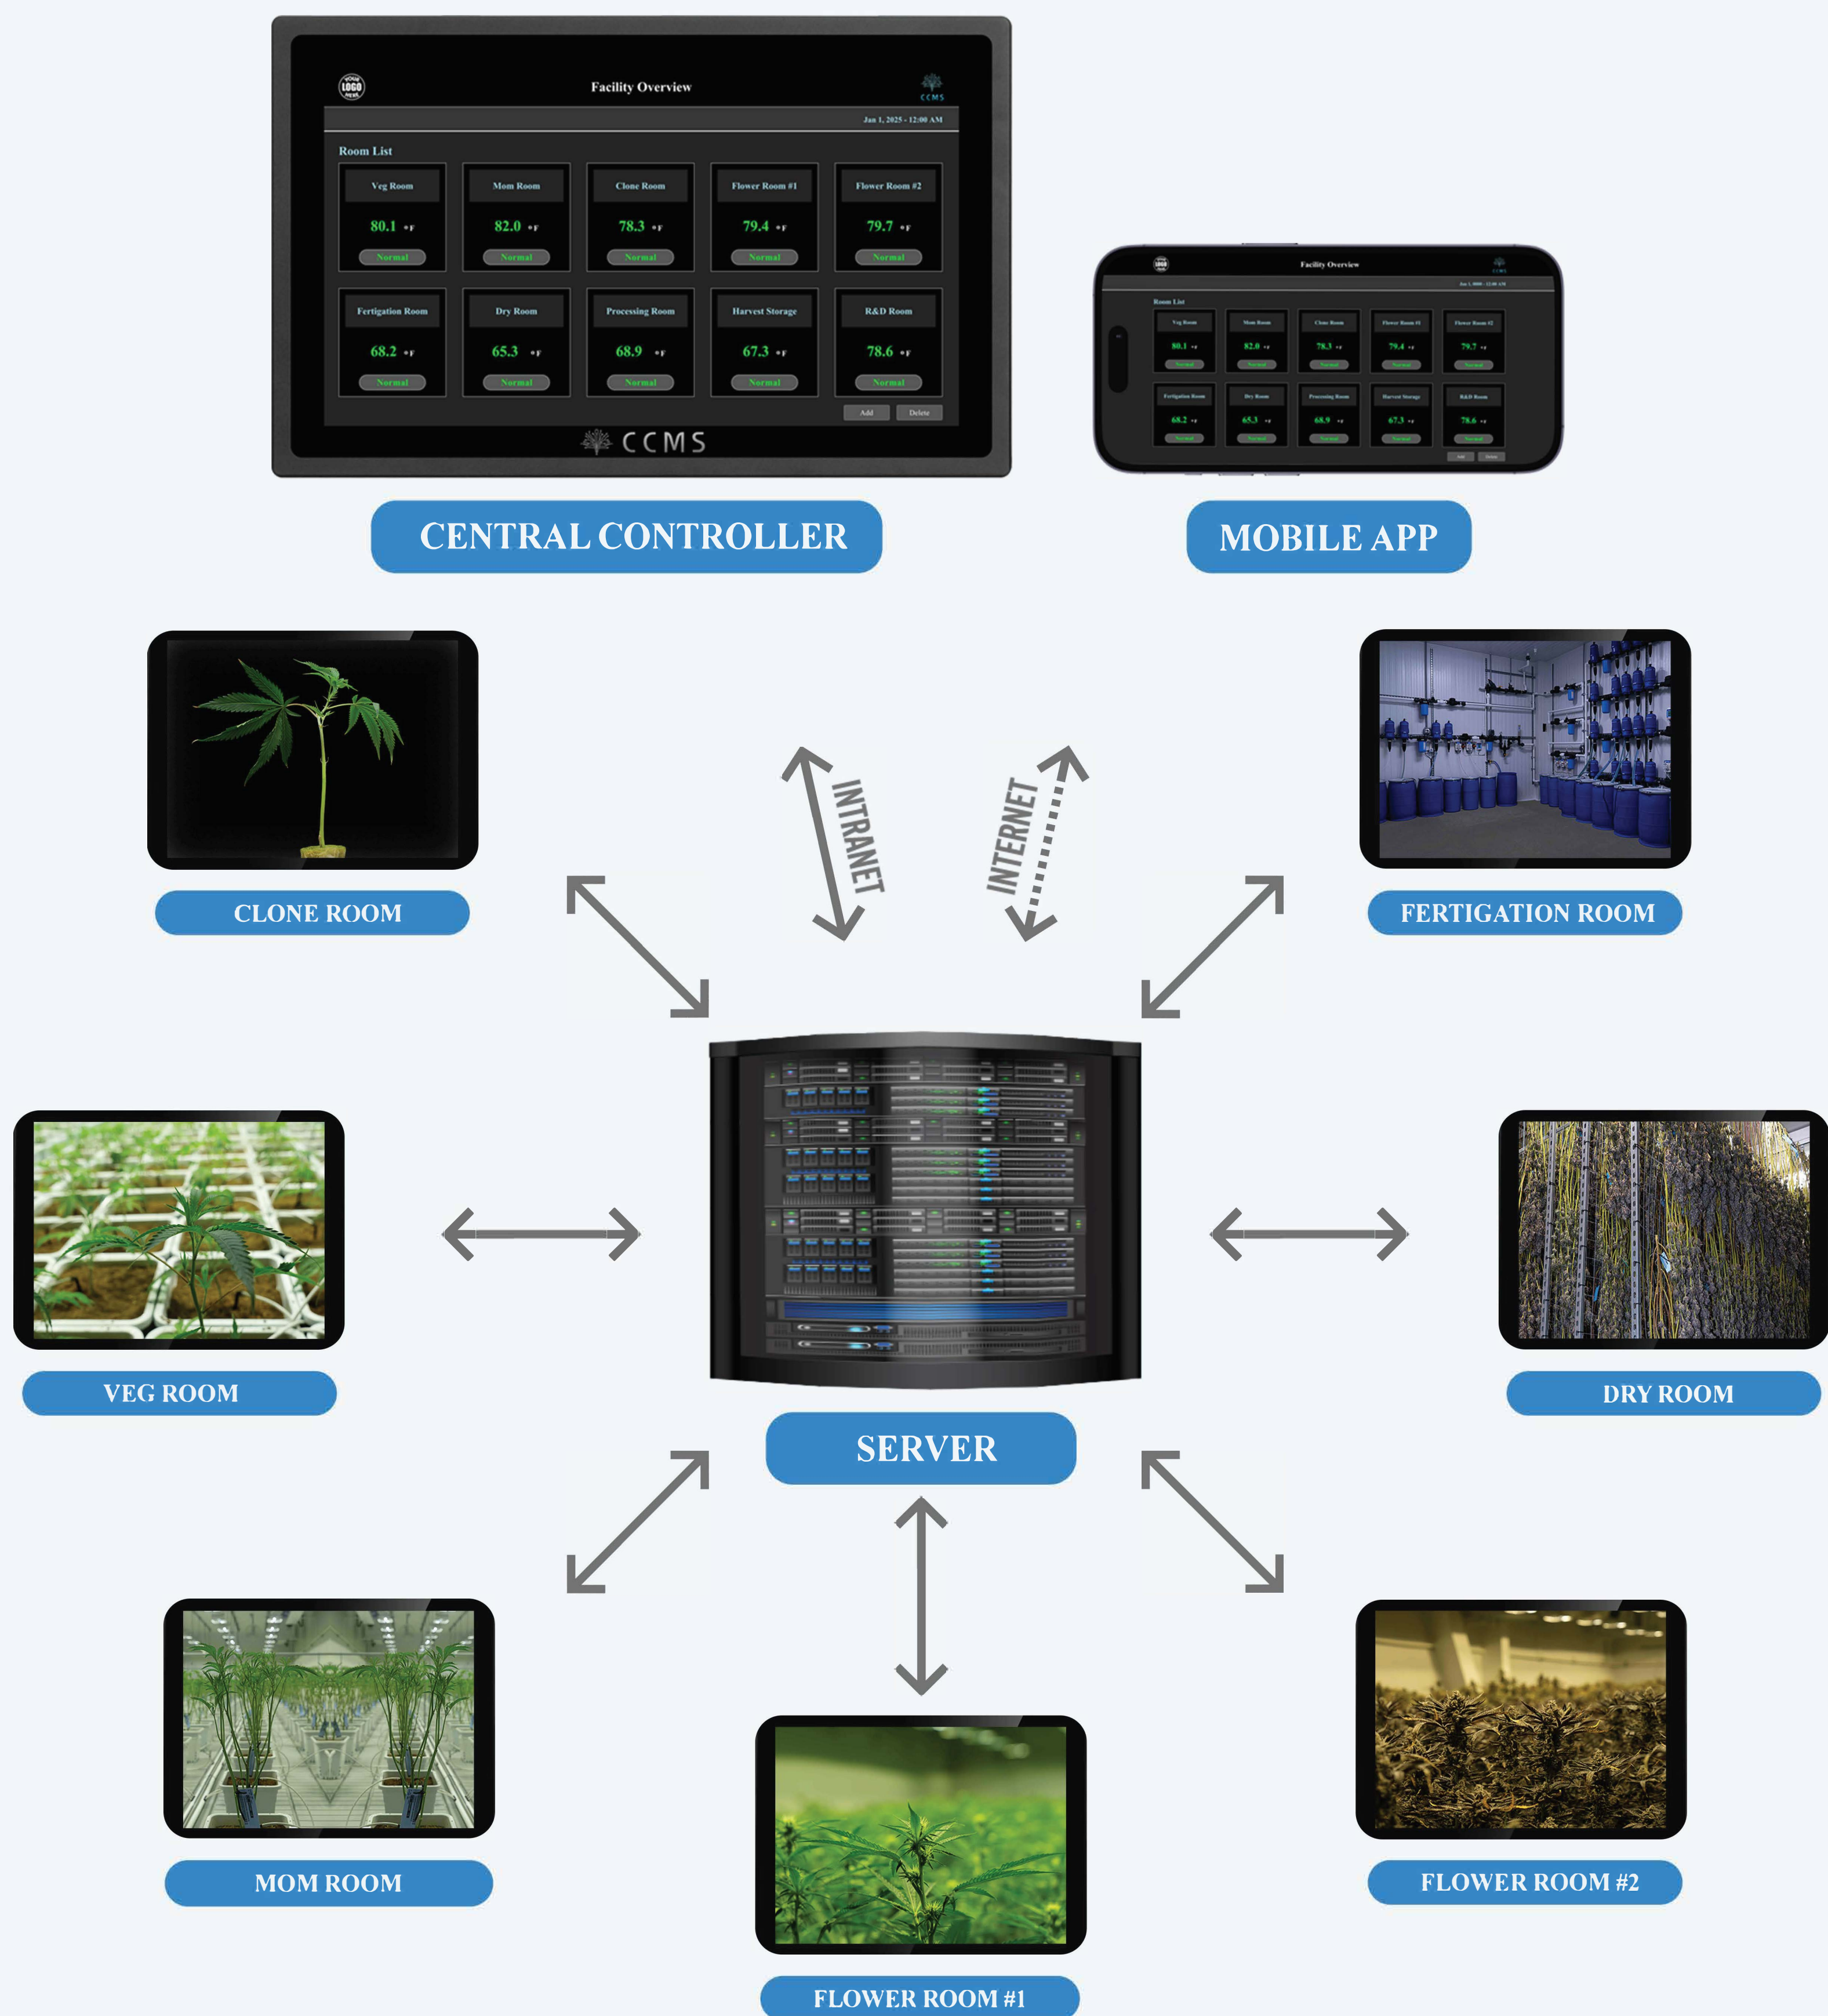

CCMS controller works seamlessly with existing devices and hardware on the market, ensuring a **smooth transition and integration** into your current setup

OPTIMIZED GROWTH WITH CCMS SYSTEM

CULTIVATION FACILITY WORKFLOW

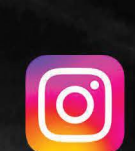

NOTES

1. Each room is operated independently by each controller (wired).
2. All controllers connect to the server via Intranet (wired).
3. Users can access all rooms on office desktops, mobiles and any controller through the local server.
4. All information is controlled locally (privacy).
